

Induction Business A Level Phase 3 2021

Please send to sml@hardenhuish.wilts.sch.uk

Phase 3 Task 1 A business issue

1. Choose a current business issue and find related opinions and examples (media, Government and business experts)
2. Gather evidence from a variety of sources. These need to reflect different views on the issue. For example, if it relates to Government handling of Brexit, then some will be positive and some more critical. Ideally you want to have balance so that you can weigh up the evidence and form arguments that have substance. Produce a data sheet of resources that demonstrate the range of resources used and whether they are in favour or critical.

Format

1. Describe the business issue
2. Organise the data you have collected
3. Analyse and explain the opportunities for businesses it presents
4. Analyse and explain the threats to businesses
5. Evaluate your analysis of the issue and decide to what extent it will impact positively or negatively on UK business activity
6. Fully justify your decision

Guidance: Word document maximum 1000 words

Possible issues include Brexit, Covid 19 and the state of the UK economy.

Extension activity: Why is current data essential for making good business decisions? (200 words)

Three month lockdown could trigger 35% drop in GDP in Q2 2020
