

KS3 Curriculum - Spanish

In Hardenhuish we strongly believe that languages are key to the future success of our students and we are very privileged to teach two Modern Foreign Languages all the way through Key Stage 3.

The Modern Foreign Languages curriculum is very ambitious since we believe that immersing our students into the Spanish language and culture is essential. We are a vibrant department and our passion for Languages transpires into our curriculum.

All students will have two 50 minutes lessons of French per week in which we include a balanced combination of the four main skills: Reading, Listening, Speaking and Writing. Our main priority is to develop the students' confidence and passion for languages by including engaging and challenging tasks into our lessons that spark their curiosity for other languages and cultures.

We have recently rewritten our KS3 curriculum with a focus on engagement and constant retrieval and revision of previous knowledge to build our students' confidence and enjoyment of languages.
