HARDENHUISH SCHOOL – SHOW MY HOMEWORK

Show My Homework has now been used at Hardenhuish for several years and is appreciated by students/pupil, teachers and parents alike. Available through a website or through an App for smartphones or tablets, Show My Homework enables teachers to clearly explain the task that has been set, suggest how long pupils/students should spend on it and be clear on when it is due in. Teachers can also upload help sheets and other resources needed to complete homework.

All pupils/students are able to login using their usual school username and password and parents will have unique codes to Show My Homework so they can access the website or App; only seeing the homework that is relevant to them.

Parents can also see the homework set for their young person using their unique parent code. This login is used by most of our parents.

Information about how to login to Show My Homework can be found here in subsequent pages for parents and students.

The purpose of homework

Homework is an important part of pupils' and students' learning. It helps them to:
- ✓ consolidate and extend their knowledge and understanding of subjects.
- ✓ practise skills such as problem solving, research, expression and extended writing.
- ✓ build independence, self-discipline and organisational skills that will support preparation for future assessments and exams and help them to cope with future employment and life's challenges.

In addition, homework forms an important bridge between the school and parents. It provides parents with opportunities to see what their child is learning and to support their attitude to learning through positive encouragement.

How often will homework be set?

Teaching staff are mindful of the need to balance the benefits of homework with time for pupils/students to rest so, to ensure they are not overloaded with tasks, a homework timetable will be set each year by the Learning Manager that specifies what subjects can set homework on different nights. However, homework should always be relevant, challenging and meaningful and will only be set when it is appropriate to do so. We do not believe in setting meaningless tasks that do not fulfil the above criteria and, therefore, teachers may decide not to set homework each time it appears on the timetable.

The Show My Homework system has helped strengthen the communication bridge between school and home. It also helps middle and senior leaders to monitor what is being set so we can address any problems that may arise.

For more information on homework, please see the school's Homework Policy, available on the school's website.

PARENT GUIDE: HARDENHUISH SCHOOL – SHOW MY HOMEWORK
Logging in without the App

Search for and visit the Satchel one Show my Homework website:

Satchel One | Login

As a parent you will need to click "I don't have an account yet"

Search
for and select "Hardenhuish School"

Enter your unique code which has been sent to parents or guardians of all our students.

More detailed guidance regarding monitoring homework being set by teachers, the school calendar and much more please visit the Show My Homework site here: Parents | Satchel Help Center (satchelone.com)

If there is a problem with your account please contact the school.
